

****Our aims and objectives are currently under review with our steering group and stakeholders****

Aims & Objectives

Aims

North Somerset Parent Carers Working Together (NSPCWT) are a well informed, connected and empowered community of families of children and young people (0-25 years) with disabilities and/or additional needs.

NSPCWT give a collective voice to such families by being a solution-focused platform for their views.

Objectives

Through a range of activities, NSPCWT raises awareness and shares information on, the issues and rights of children and young people with disabilities and/or additional needs and their families.

NSPCWT provides opportunities for parent carers to influence decisions that affect their families and contribute to developments that improve services to their families, by working in partnership with the Local Authority, Health and all other relevant groups and organisations.

NSPCWT provides a contact point and strategic partner for North Somerset Local Authority and Health requests for co-production and parent participation in any work streams relating to children and young people with disabilities and/or additional needs.

NSPCWT uses grants available in an effective way, to encourage and strengthen the participation of parent carers across North Somerset, representing all families including the diverse and seldom heard groups.

NSPCWT works collectively for all families, respect each other's views and make best use of one another's skills and resources.

These Aims and Objectives can be reviewed upon request by any Parent Carer.
